## **Review and Discuss Air Medical Rules and Equipment and Supply Checklist:**

Mr. Fiffick – The rules expire in June, 2019, need to have draft changes by January. We are aligning the air medical rules the same format as with ambulance, ambulette and MolCU rules. Page 1 – Definitions and strikethrough language (in red) that is no longer needed or reworded. Incorporated by reference is now listed at the end of the rules. 4766-5-02 vast majority of the rules in blue are recommended changes to the language. Again, keeping in line with the other three rules. Currently updated application for initial or renewal license, asking for tax ID or EIN, headquarters clarified to be in Ohio.

Suggested change to 4766-5-02 (7) Out of state satellite base. Do they require inspection or should AMSO just provide the street physical address, city, state and zip code.

A long discussion ensued.

Ms. Rose – Do to the lengthy discussion we need to continue this at the next meeting.
